Let's take 3 quick polls...

■ Part 1: Review

SOGIE Terms & Research on LGBTQ Youth in Schools

HUMAN
RIGHTS
CAMPAIGN
FOUNDATION

**all children
all families**

There are many dimensions of identity. Today, we're zooming in on **SOGIE**.

Let's review LGBTQ and SOGIE.

LGBTQ

- Lesbian
- Gay
- Bisexual
- Transgender
- Queer
- Questioning

SOGIE

- Sexual Orientation
- Gender Identity
- Gender Expression

Sexual Orientation is:

A person's **emotional, romantic, and/or sexual attraction** to another person.

Lesbian

Gay

Bisexual

Straight

Asexual

Pansexual

Gender Identity is:

A person's internal sense of being male, female, or a blend of both or neither.

Male	Female
Non-Binary	Genderqueer
Bi-gender	Agender

There are two key terms related to gender identity that we should understand:

Cisgender

Sex Assigned At Birth

=

Gender Identity

Transgender

Sex Assigned At Birth

≠

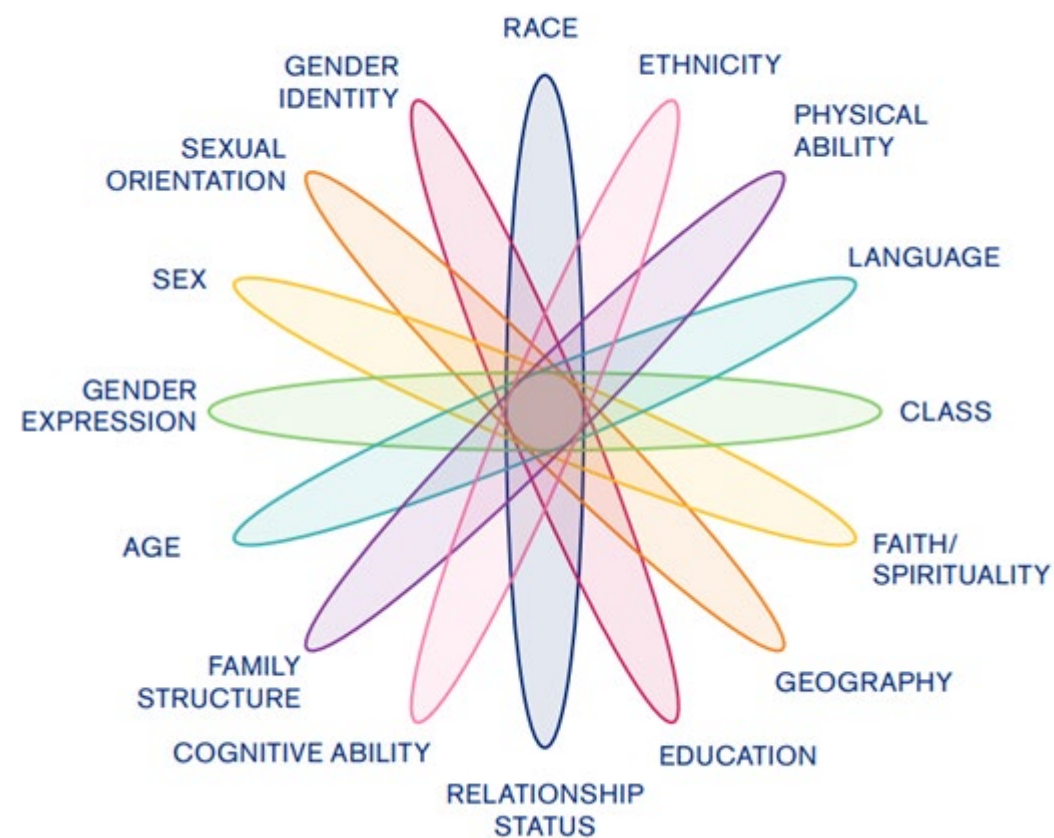

Gender Identity

Intersectionality must inform our efforts toward LGBTQ inclusion.

DIMENSIONS OF IDENTITY

SYSTEMS OF OPPRESSION

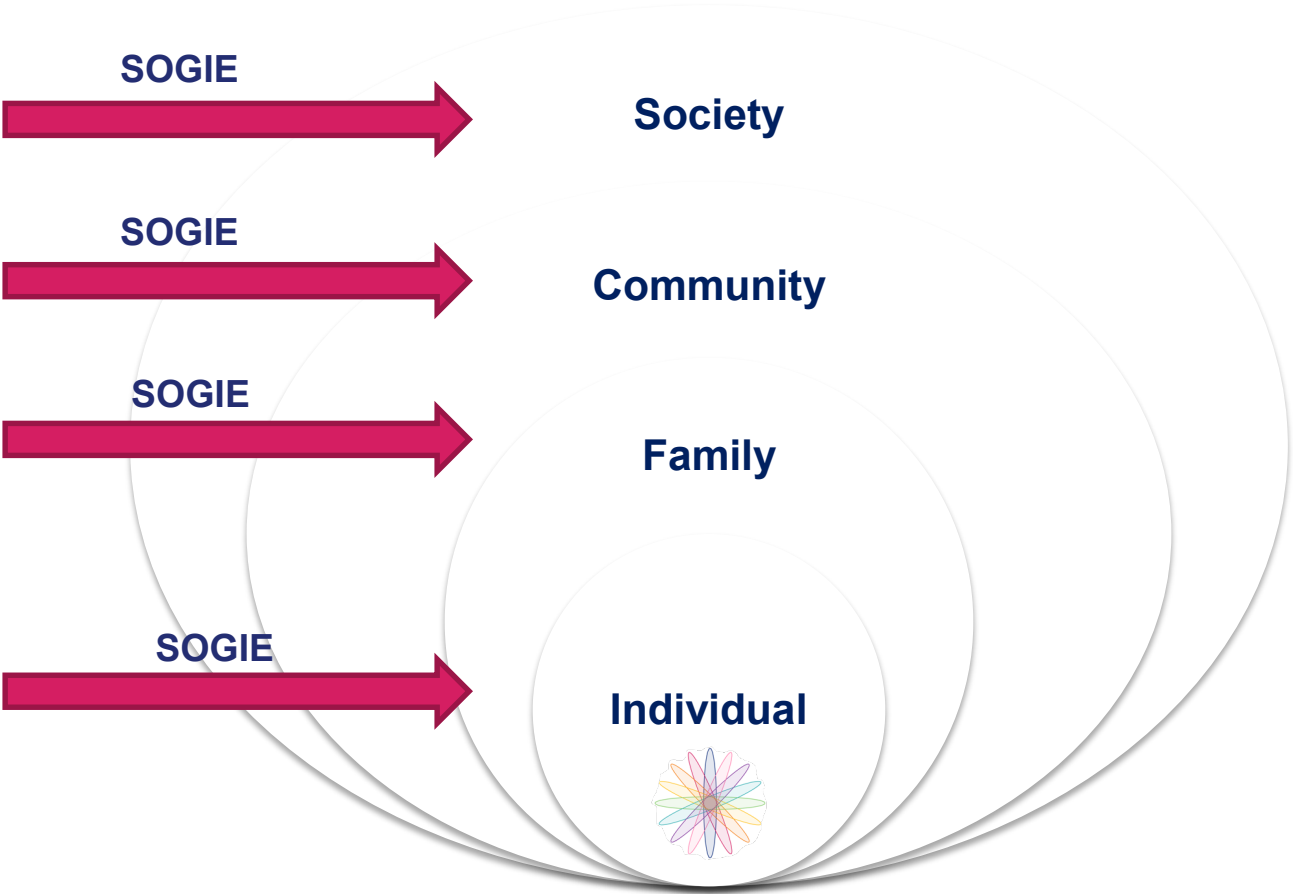

AGEISM
ADULTISM
CISSEXISM
SEXISM
SIZEISM
RACISM
COLORISM
ETHNOCENTRISM
ABLEISM
CLASSISM
ISLAMOPHOBIA
ANTI-SEMITISM
NATIVISM

INTERSECTIONALITY

A THEORY OF OPPRESSION THAT CAN GUIDE OUR WORK SUPPORTING CLIENTS. ASKS US TO CONSIDER HOW ALL ASPECTS OF A CLIENT'S IDENTITY IMPACTS EXPERIENCES.

SOGIE in Context

Let's review the relevant research on LGBTQ youth.

Identities

Experiences

Sexual Orientations

SEXUAL ORIENTATION OF LGBTQ YOUTH PARTICIPANTS

62% of 2017 respondents identified as a sexual orientation other than “gay” or “lesbian.”

Gender Identities

Nearly 25% of 2017 respondents checked a gender identity outside of the binary of male/female.

Research on SOGIE Development:

“Are they too young to know?”

SO: In one study of lesbian, gay, and bisexual youth:

- 75% recalled feeling “different” in childhood
 - Usually between ages 4 and 12 (age 8 on average)
- Most first identified as LGB between 12 and 16 years old
 - Average age 14 for both boys and girls

GI: In one study of transgender youth:

- Average age of “talking about gender being different” was 5 for trans girls and 8 for trans boys
- Not uncommon to do so as early as 2-3 years old

Experiences of LGBTQ Youth

Disproportionately victimized

Overrepresented in systems of care

Often in foster care because they were rejected for being LGBTQ

Abuse, discrimination, and rejection while in care

Complex Challenges: LGBTQ Foster Youth in Schools

LGBTQ Youth have the right to:

- An education
- Personal safety at school
- Be free from discrimination based on their gender identity

Does every young LGBTQ person have an adult who cares about them and their schools experience?

Bullying & Harassment

71.4% hear “gay”
used in a negative
way

55.5% feel unsafe
because of their
sexual orientation

37.8% feel unsafe
because of their
gender
expression

74.1% verbally
harassed because
of SO; 55.2%
because of GE

36.2% physically
harassed because
of SO; 22.7%
because of GE

School-to-Prison Pipeline

LGB youth 3X more likely to have harsh disciplinary treatment

- Especially gender-nonconforming girls

Higher rates of punishment are not from higher rates of misbehavior

Significant distrust of school administrators

Part 2:

Educational Advocacy & Support

COVID-19 Considerations & Resources

SUPPORTING LGBTQ STUDENTS DURING THE CORONAVIRUS PANDEMIC:
A Tipsheet for School Social Workers

During the coronavirus pandemic, school social workers across the country continue to provide essential services to students. Social distancing requires a new set of strategies and provides new opportunities to support and affirm LGBTQ youth, especially when they live in unsupportive environments. This tip-sheet offers key considerations when working with LGBTQ students in virtual settings, and guidance to help mitigate some of the emerging challenges they face when social distancing practices are required.

“What makes me more comfortable is if they have a sticker or poster that shows that they are supportive of LGBTQ people.”
— LGBTQ STUDENT

1. Create an Affirming Virtual Meeting Space

Now more than ever, LGBTQ students need the support of their school social workers. According to HRC's 2018 LGBTQ Youth Report, 77% of LGBTQ youth reported that they felt down or depressed within the past week. The report also indicated that many LGBTQ students feel unsafe or uncomfortable discussing LGBTQ issues with school-based mental health providers.

- **Create a visible safe space.** If you are using Zoom to meet with your students virtually, consider using an [HRC-branded Zoom background](#) to help indicate to students that you are LGBTQ-affirming. You can also search online for your favorite LGBTQ safe space sign to display in an area that is visible when you are speaking on screen.
- **Ask or share pronouns to demonstrate LGBTQ inclusion.** If your meeting platform allows you to list your name, add your pronouns; for example, “Mrs. Garcia (pronouns: she/her).”
- **Use gender-inclusive and non-heteronormative language,** which not only models inclusivity, but also sends a strong message to LGBTQ individuals that you support LGBTQ people. If students can easily assess that you are an ally, they will be more likely to trust you and to seek the support they need.

2. Anticipate Unique Challenges When Families Are Not Affirming

While some LGBTQ students find affirming support at school, many live with unsupportive families. According to HRC's 2018 LGBTQ youth report, 67% of LGBTQ students hear their families make negative comments about LGBTQ people. When LGBTQ students are unable to be their authentic selves, or when they are forced to live in unsupportive environments, the effects can be overwhelming. Family rejection is one factor that contributes to the fact that LGBTQ youth continue to be disproportionately represented among homeless youth in our nation, and their experiences of homelessness continue to

HUMAN RIGHTS CAMPAIGN Supporting LGBTQ Students During COVID-19 | 1

- Create an affirming virtual meeting space
- Anticipate challenges related to non-affirming environments
- Maintain confidentiality & privacy
- Connect youth with virtual supports

Educational Advocacy

Learning
challenges from
trauma

Challenges with
placements and
stability

School can be a
supportive or
damaging
experience

Educational Advocacy

In advocacy work, safety is key!

- It's simple: students who don't feel safe can't focus on learning.
- Students who experience acceptance at school are more highly motivated, engaged in learning and committed to school.
- All children need a sense of continuity, stability and normalcy.

Step 1: Listen

Ask the youth how they feel about school.

- Hearing their perspective and how they feel about school is important.
 - Do they have supportive adults in the school?
 - Do they have friends and/or activities they like?
 - What is their favorite class, etc.?
- Know each individual youth's experience - every child has different needs and a different story.
- Don't overgeneralize based on the child's SOGIE.

Step 2: Resources

Identify resources based on the child's age.

- Early Childhood (0-36 months)
- Pre-kindergarten
- Elementary School
- Middle School
- High School
- College
- And beyond

Step 3: Your Role

Clarify your role.

- Who makes educational decisions for youth in care?
- What are everyone's roles?
- What are the relevant laws and policies in your state?
- Does the youth have an Individualized Education Plan (IEP)?
 - What is the plan?
- Understand the importance of confidentiality.
 - Can you/should you share their SOGIE status with others?
 - With whom do you share the youth's IEP?

Step 4: Stability

Understand the importance of stability.

- Help the youth to stay in the same school when possible.
- Maintain community connections when possible.
- If a school transfer has or will occur pay attention to:
 - Enrollment
 - Records transfer
 - Credit transfer
 - Identifying supportive adults/resources in that school
 - LGBTQ-related policies & resources

Step 5: Ongoing Advocacy

Pay attention on a regular basis.

- Young people need adults who regularly pay attention to:
- Attendance
- Discipline (if any)
- Experiences of bullying (if any)
- Grades and tests
- Extra-curricular activities
- Food access/nutrition
(breakfast and lunch programs if needed)

Step 6: Special Education Needs

Be willing to ask for help and seek supportive services in order to meet child's needs.

- When a child needs special services:
- Learn the process
- Who can be an education surrogate?
- What are the evaluations available and necessary for this child?
- Do they need an IEP?
- How can progress be ensured?
- How will this IEP keep them on track for a successful graduation?

Step 7: Graduation and Beyond

Keep the big picture in mind.

- What is the youth's plan for graduation and/or transitioning out of care?
- Do they have enough credits?
- Do they have the right credits for what they want to do next?
- Timelines for applications
- College- tuition
 - Waivers and scholarships
- Vocational and Trade Schools

Case Study: Gabrielle

- Gabrielle is 14 years old
- In foster care for three years with three different placements
- Defies stereotypes related to gender expression
- Does well socially in their after-school club
- Has few friends at school
- Is reading at grade 4 level
- Is shy and not talkative with most adults
- Currently in trouble for being in a fight on the school bus
